DP-10i-100-MU

Category:	Power Systems / Power Supplies / Rack Mount Power Supply / DC Distribution Panel
Product Name:	DP-10i-100-MU
Description:	<p>The DP-10i-100-MU Centri Series Electronic Fuse distribution panel is a rack mount (1U) power distribution panel that provides up to 10 load circuits protected by individual electronic fuses. Each circuit can be fused up to 40 Amps, with 100 Amps max for the whole unit. The unit provides real time power monitoring for all connected devices including email notifications. Electronic fuses are remotely resettable and can be configured for auto-reclose conditions.</p>

Specifications

(See Individual Product Owners Guide for full Specifications)

Model Number	DP-10i-100-MU
DC Input	5 ~ 58 VDC
Input Current	100 Amps max
Output Current	30 amps max
Outputs	10
eFuse rating	0.1 ~ 40 Amps
